

# DanK Pay - Solana Grant Proposal

## Overview:

DanK Pay is a Solana-based QR payment and rewards platform specifically built for the cannabis retail industry. It enables dispensaries to accept fast, secure, and low-cost crypto payments using a utility token called DanKBud (\$DKBUD).

## Why DanK Pay?

- Dispensaries face cash-only limitations due to federal banking restrictions.
- DanK Pay eliminates ATM fees, manual handling of cash, and improves safety.
- Built on Solana for speed and near-zero fees.
- Designed for real-world adoption with automatic fiat conversion for businesses.

## Token Info:

- Name: DanKBud
- Ticker: \$DKBUD
- Type: Utility Token (non-speculative)
- Total Supply: 1,000,000,000 (deflationary)
- Function: Used for purchases, loyalty rewards, and staking within the DanK Pay ecosystem.

## Funding Request:

- Total: \$25,000
- Use: Development, testing in Colorado dispensaries, UI design, compliance guidance

## Public Good:

DanK Pay is open-source and reusable. It helps financial inclusion for cannabis businesses and

expands the Solana ecosystem by onboarding real-world users.
